Dear CADS Members:

It is our goal to keep you all informed and be as transparent as possible as we move through these questionable times. We have formed a Covid Committee that will be our source for determining the different scenarios and how each will work. The committee is made up of board members, volunteers, and health care professionals to ensure that we are looking into the best scenarios for all of our members.

It is our goal to make a decision on programming in November, please note that that date is subject to change pending outcomes of Covid 19 and suggestions that we receive from our committee.

" Everything we do....we do it for you" - Bryan Adams

STAY tuned STAY connected

Sincerely,

Scott Darling
